Camera-Ready Submission procedure through MyProConf conference management system:

1. Log in to your MyProConf system account using the appropriate url (e.g., for AII 2025, use this link: https://myproconf.com/events/index.php?url=aii-2025).

2. Select the "Author Access" from the AII 2025 Role Page.

3. In the Author DashBoard, click the blue button showing the number of papers you submitted from the "My Submitted Papers" column.

4. Click the green button under the "Camera Ready Submission" column for the paper you want to submit the camera-ready version.

5. In the Camera-Ready Submission page, you will be able to (see the screenshot below):
    a. Update Paper Information – such as title, keywords and abstract
    b. Review again the steps to ensure that the camera-ready version of the accepted paper has been prepared following the guidelines.
    c. Upload the zipped file of the camera-ready version with all required files.

📷 **Camera Ready Submission**   [List Papers]

Status: Camera Submission File is not uploaded.

Step 1: Update Paper Information (optional)

① [Click to update paper]   If your paper title, keywords and abstract needs to be updated then click on the following button.
